

HIDRATE SPARK

2.0 Smart Water Bottle

WHAT IT DOES

The Hidrate Spark water bottle is a technology based water bottle that connects to your phone. Every sip you take is tracked by a sensor on the water bottle. The purpose is to keep you hydrated throughout the day, and it does this by glowing if you are low on your water intake for the day. It also gives you friendly reminders on your phone to drink more if you are behind for water goal for the day.. It also can track your . bottle for you if you lose it

NEVER FORGET
TO DRINK
—
YOUR WATER
AGAIN
